NAME

Caroline White and Joao Pereira, Dairygold, Cork.

ROLE

They are supporting the food manufacturing sector and in particular the production of powder for infant formula.

INTERESTING FACT

In 2016 Ireland produced 10% of the global supply of infant formula. One in every seven babies in the world consumed an Irish baby product.

A FEW WORDS FROM JAMES MAHON: Operations Manager Cork.

"This is something our on-site team in Dairygold should be very proud of. When JFK visited NASA as President of the United States he asked a cleaning janitor what he did on-site, he replied that he had helped put a man on the moon. The Momentum Support team are on the front line helping to ensure that babies globally have the food they need to grow and thrive on during this pandemic!"
