Issue 36

Momentum supports its Stakeholders through connecting with you throughout the **Global pandemic**. February 2021 brings a continuation of Covid-19 restrictions across the business. Vaccinations are progressing very well within Healthcare.

Employees report feeling a “peace of mind” once they have received the vaccination. Some hope has returned with the vaccination rollout. We all need to stay strong in these unprecedented times. There is no place for complacency as we have many levels still in need of the vaccination. **Think Safety First! Everyone's Responsible.**

THANK YOU to each and every member of the Momentum Support Team. Your resilience is so powerful as each one delivers Operational Excellence and beyond!

BREAKING NEWS! Say Yes to the VACCINATION If lucky to be offered one!

Healthcare reports vaccinations are progressing well.

Name: Pedro Fonseca Gottsmann

Role: Cleaning Operative, Mater Misericordiae University Hospital

Why did you opt to receive the vaccination?

When offered the vaccination I really wanted to receive it for Health & Safety reasons as I am a Cleaning Operative in Healthcare.

How has this supported your mental state?

I feel very lucky having received the vaccination today. I was one of the first and I have a peace of mind now.

What was the experience like?

I attended the vaccination clinic and the staff were very helpful and careful with me. I felt a little prick from the needle on my skin, it was not so bad. Now I feel normal with no side-effects.

What advice would you give to others who have the opportunity to receive the vaccination?

If you have the opportunity to receive the vaccination. Please say yes! it is the best decision for your own safety and that of your family, friends and all you come into contact with.

What would you like to say to those who have not received the vaccination yet?

Please wear a mask and follow the Government guidelines. Do not enter crowded places. Please stay at home as much as possible. I have first-hand experience as I work in the hospital. I have seen very close to me some people who are very ill. Some people have died. I feel sad for this loss of life and the family left behind having lost a loved one.
