HEART TO HEART with the EDITOR

Name: Krzysztof Pompa
Position: Maintenance Supervisor

When did you join Momentum Support and what is your current role?

I joined Momentum Support fourteen Years ago as a Driver Operative, part of the Eircom Team. I have progressed through the company in a number of positions within the Industrial and Window Cleaning Teams. Due to my flexibility and general knowledge of the Sites and the people, I have covered annual Leave for many over the years. I have always focused on my personal development. I was searching for a role that would allow me to use both technical and mechanical skills that I had obtained through my interests. In 2018 Human Resources advertised a position as Maintenance Supervisor. I suddenly thought "I would be perfect for this role".

What does your role as Maintenance Supervisor include?

As Maintenance Supervisor I am the designated person in Momentum Support responsible for receiving all Maintenance request calls from sites across the organisation. My role provides the maintenance service for machines, equipment or fleet servicing. Daily, it could be a need for a repair, a replacement, a service or a requirement to improve through modification.

Krzysztof people see how conscious you are about the World happenings around us. You believe in making a difference through leading by example in your own personal life. Please share with us.

In these times when the world is on the edge of the fourth industrial revolution. I believe we have to start to focus on the things that are really important for us within our own individual lives. To me that includes healthy eating, balance, exercise, meditating and creating good relationships as we are all human. Lastly remember to make time just "to be".

Rumour has it! that you are a dare devil!

Since I was ten years old, I have a passion for extreme sports such as roller skating, climbing, skateboards, snowboards, Kite surfing and eventually reaching my perfect place as a stunt rider.

You like to give back to Society, tell us more?

I remember fifteen years ago I took a one-day trip to the mountains in Poland and ended up staying for six months! When I arrived, I met some people who were running a Children's campaign. I joined them and contributed through supporting the children with Snow board lessons. It really made me so proud to see the kids having so much fun. I would recommend for people to join in charity events.

In 2019 I was part of the Zlomball 13 Edition Charity in Poland. It was where I joined 500 vintage cars who travelled from Poland to Wicklow, Ireland over a ten-day period. It was an amazing experience to meet so many like-minded people who raised 400,000 Euro to support 111 foster homes in Poland.

What are you most grateful for in your life?

I pride myself on my positive thinking and optimism. This has resulted in a very successful hobby for me as a Stunt rider, one of Ten in Ireland. Today I own several bikes and have built from scratch a professional garage. I receive acknowledgments through competitions and shows. Through the coaching and training I offer for new beginners I am respected within the Stunt riding Community. I am proud to have built the Mad Max Car for the Movie launch Mad Max in the Savoy Cinema in Dublin. On the day all the people were so excited to get into my creation "great memory for me".

Name one thing about you that may surprise others?

I do not eat meat! we are in the 21st Century so I believe it is not necessary anymore.

What is your Motto? Never give up.

Tell us about your love for animals? *I love animals since I was a child with my first dog "Bolek". Since then, I notice animals have feelings like humans. I cannot help myself! when I see a dog alone, I just want to rescue him and take him home. At the moment I have 4 rescue animals including two dogs and two cats! The Dogs are called Lola & Pako and the Cats are called Filemon and Zosia.*

What would your perfect holiday include?

I would load up the Cats and Dogs into the camper van and just Go!

The Last word?

I like working at Momentum Support because of the people who always support me. I also feel I can improve aspect of the company through my understanding of the dynamics of the business.
